As I leave Saugus High School, I know I will think often of my experiences here and o the friends I spent my time with, both in and out of school. I am not sure who I will be or where I will end up when I have reached all of my goals, but it is definite that I will always carry with me pleasant memories of my years in high school.

As a danish exchange student I have no idea what this senior biography is all about. First I better thank Saugus for being the only place in the US who would host me. I'm also grateful that SHS gave me eight unions a week which definitely were my best classes. I would also like to thank the other exchange students for being as bad at english as me. At last I'd like to thank the students of SHS for making this year the eighteenth best of my entire life!

## Voyislav Popovich

My name is Voyislav Popovich and I came from Yugoslavia about two months ago, I will be here one school year. I like this school and I like America. This is the first time that I am in America. There is a big difference between school and life here and in my country. School is easier and has more freedom. It was very hard at first couple of days to become habituated to new way of living, new people, and another language but as the days pass by it was better and better and now I feel really good.
